

# PDA Bookstore New Release

## VISUAL INSPECTION AND PARTICULATE CONTROL

BY: D. SCOTT ALDRICH, ROY T. CHERRIS  
AND JOHN G. SHABUSHNIG

PDA MEMBER PRICE: \$240

PDA NON-MEMBER PRICE: \$299

ITEM NO. 17334

In this industry, due to stringent contamination controls for medical products, refining the process and product to yield high purity and stability is most important. PDA/DHI's newest publication, *Visual Inspection and Particulate Control*, is a practical guide for the control of visible defects and contamination in pharmaceutical products. It is meant to familiarize and educate seasoned inspectors with the principles of microscopy, and seasoned microscopists with the elements of visual inspection, presenting readers with ways to find visible defects and what to do with them once found. The authors share personal experiences and lessons learned from decades associated with visual inspection and particle identification in the pharmaceutical industry, and provide references throughout to allow the reader to find the primary source of relevant information to allow further investigation and study.

To fill the current industry knowledge gap, this book shares the authors' professional knowledge and will help you experience the wonder of materials science as well as the gratification of finding the source of product rejects.

### Table of Contents:

- Detection
- Isolation, Characterization and Identification
- Remediation and Prevention
- Life-Cycle-Approach
- Case Histories/Examples of Product Failure
- Epilogue
